

Dear Hiring Manager,

I am writing to express my interest in **Full Stack Developer** and **Software Engineer** opportunities within your organization. I have **over four years of experience in software development**, with hands-on expertise in designing, developing, and deploying **scalable web applications, APIs, business platforms, and AI-powered solutions**.

My technical skills include **JavaScript, TypeScript, React.js, Next.js, Node.js, Express.js, Python, FastAPI, C#, .NET Core, PHP, Laravel, Angular, and React Native**. I have worked with databases such as **PostgreSQL, MongoDB, MySQL, and SQL Server**, along with technologies including **Prisma, Entity Framework Core, REST APIs, GraphQL, Docker, AWS, Git, Nginx, and CI/CD pipelines**.

Throughout my career, I have contributed to projects across **trading, travel, CRM, SaaS, restaurant management, inventory, mobile applications, and AI automation**. My experience includes developing responsive user interfaces, designing secure backend APIs, implementing authentication and role-based access control, managing wallet and payment workflows, optimizing databases, and deploying production-ready applications.

I also have practical experience in **Generative AI and Retrieval-Augmented Generation (RAG)**, including **AI chatbots, LangChain, vector databases, embeddings, document-based question answering, automated content generation, and business workflow automation** using Python and FastAPI.

I am a responsible and adaptable developer who enjoys solving technical problems, learning new technologies, and collaborating with cross-functional teams. I focus on writing **clean, maintainable code** and delivering reliable solutions that meet both user and business requirements.

I would appreciate the opportunity to discuss how my experience and technical skills can contribute to your organization. Thank you for reviewing my profile and considering my application.

Sincerely,

Saddam Irake

Full Stack Developer
